### Letter of recommendation

Dear Sir or Madam,

The Dürr Group (located in Bietigheim, Germany) is one of the world's leading mechanical and plant engineering firms. Products, systems and services offered by Dürr enable highly efficient manufacturing processes in different industries. Business with automobile manufacturers and their suppliers accounts for approximately 60% of Dürr's sales. The Dürr Group operates in the market with five divisions, whereas Power Solutions worked within Paint and Final Assembly Systems for the automotive industry.

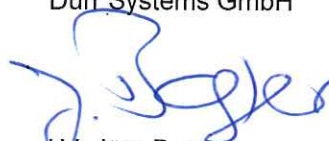

Power Solutions performed the electrical installation of the network for our project VW Crafter in Wrzesnia, Poland. The project included the electrical installation of cable trays, installation of fibre optic cable as well as splicing of fibre optic cables. Additionally, measurement protocols have been conducted according to Volkswagen standards.

Company Power Solutions have been seen as a very flexible company who adapted quickly to project changes and brought in own ideas and optimization possibilities. The quality of work has been evaluated as very good in strict accordance with economical, efficiency, time and quality targets. The workers on site at Wrzesnia have been well-trained and organized. The scope of work has been performed in a very professional manner.

We are looking forward to a continuing cooperative partnership with company Power Solutions in the future.

Kind Regards

Dürr Systems GmbH

  
i.V. Jörg Bayer
